### **REPORT PROJECT: PROVIDE HEALTHY WATER AND FOOD FOR 5953 CHILDREN**

The project “Provide healthy water and food for 5953 children” aims to carry out drilling and produce vegetable through agroecological practices in 11 primary schools in rural area. It is an opportunity to allow 5953 pupils to have drinking water and healthy lunches.

The project activities started on 1 september 2022 through the own funds of AFDD and the grants of Paris city hall. The funding amounts to 11000 Euros.

The school of Yombo and Sekia-Dallet villages were trained on agroecology in November 2022 and received agricultural inputs (seeds of vegetable, tools and other materials).

About drinking water, only school of Sekia-Dallet received water drilling.

The donate are important to continue our project.
